Three Black and White Magic Spells

SPELL 1 - Black and White Protection powder

Step 1; Get a cup of sea salt. If you do not have sea salt, you may use kosher salt or if that is not available, use cleansed table salt. To cleanse the salt, hold the bowl of salt in your hands and charge it with your positive energies.

Step 2: Now gather at least 1 cup of whole black peppercorns, the fresher the better.

Step 3: In a grinder or using a mortar and pestle, grind the salt and the peppercorns together to get a black and white powder. Pour the powder into a bowl and carry it around your home. Sprinkle it all over your house and yard to protect your property and space.

Make sure you reach all the corners of the house, and up among the rafters and from one end to the other of your property or compound.

SPELL 2 - Black and White Conjure bag spell

Step 1: Get 1 teaspoon sea salt, kosher salt or cleansed table salt

Step 2: Get 1 teaspoon whole black peppercorns

Step 3: Get nine healthy black-eyed peas

Step 4: Draw images of your guardian spirits, usually black dogs and white dogs on paper.

Step 5: Grind the sea salt and peppercorns to a fine powder. You may use 2 teaspoons of the powder that you had prepared in Spell 1. Get a small pouch that is small enough to carry all of the above and place the items (one by one in it.

Remember to use a pouch with thick netting so that the black and white powder will not leak through it.

Step 6: Carry this bag for protection or hang it in a corner of your home.

Banish Evil from your life spell

Step 1: Get a cup of sea salt, kosher salt or cleansed table salt and set it aside.

Step 2: Gather five black candles and a box of matches ready.

Step 3: Find some Chalk for drawing a sacred symbol and some water in a bowl for purification.

Step 4: In the center of your home or property, draw a large pentagram (large enough so that you can sit in the middle of it later).

Step 5: At midnight, gather the salt, candles, matches and water near you and sit in the middle of the pentagram. The five points of the pentagram represent the five elements of nature: Earth, Fire, Wind, Water and Spirit. Take some salt in your hand and line the pentagram with sea salt. This gives even more significance and power to this sacred symbol. Mix some of the salt with water and purify the whole area by sprinkling the mixture over the entire space around you.

Step 6: Now place the five candles on the five points of the pentagram.

Step 7: Light the candles one by one, chanting:

May the salt of the ocean protect my home and everything in it!

Step 8: Sit in meditation and visualize all evil being dragged away from your home and surroundings and a large protective shell being built around the area.

Sit in that manner for as long as you can. When a sense of peace envelopes you, open your eyes and slowly snuff out the candles one by one in the opposite direction.

Your home will now be free of all evil energies.

Brightest Blessings.
