What Are Spell Kits, And What They Can Do For You

Magick has been around for milleniums! The ancient secrets were passed on to the followers through word of mouth for a long time. Many of the herbal and medicinal lore were passed on through generations to come to this time and age.

However, many among us are not that confident of casting spells. There are people who think that magick should only be practiced by a select few.

It is true that the more we practice, the better we get at working magick.

However, everyone needs to know the way to create their dreams. Small changes in the thought process can make large changes to the results. It's always better to learn the craft ourselves rather than have others create the environment, construct the chants and visualize for us. An old lady that you reach on the internet may not visualize the lover of your dreams as well as you can! It could be dangerous if we hand over our dreams to someone else.

So some smart people came up with spell kits. These are collections of items required for specific spells. For love spells, the kit may contain dried rose petals, some some perfume, rose oil and a pink candle. Using these items, we can easily sit down and perform the spell. Of course WE visualize the lover of our dreams, thank goodness!

The advantage of a spell kit is that we don't have to go all over town or google all over the internet shops trying to find a particular colored candle or a dried herb that you have never heard of. With these kits, your dream kit comes in a box. All you have to do is pay and wait for it to arrive. When it comes in, open the box, read the instructions and work the spell as directed. If you have any questions, there may be phone numbers for customer service. The first thing to do when the kit arrives is to check off the list of items that are supposed to be included. If they are all in the box, make sure that the kit is designed for working your own specific ritual. The items are really not that important.

The energy that you put into it, the time you take for visualizing the results and making them concrete is more important than worrying about an item that may be missing in the kit.

Here are popular items in some of the kits:

Painted Bottles : Latin American Charm flasks, Hoodoo painted bottles and religious painted bottles for spells such as Breakup bottle, honeyjar spells, compelling bottle, fast luck bottle, money magick, gambling luck, Come to Me, Reconciliation, Peaceful home, Lavendar love, etc.

Inks - Bat's blood ink, Butterfly's blood ink, Dove's blood ink, Dragon's blood Ink, Raven's feather ink, Chinese Magickal ink, Moroccan Ritual ink, Rosewater charm ink, Tibetal ritual inks, etc.

Candles - different colors, shapes, decorations, textures, etc.

As you can see, most of the kits are prepared for the specific purpose of the spell. The ingredients are carefully packed and the list of instructions added to the package before it is sent.

As magick becomes more popular, the demand for these customized kits will increase.
