3 Beginner Magic Spells

Every day more and more people are getting interested in Witchcraft. Thankfully people have started to think for themselves while wondering how exactly the Universe works.

Beginners are amazed to learn that Witchcraft is the most natural way of life. There is no God to fear or love and there is no punishment or repercussion for not obeying an unknown, unseen entity. Living the life of a witch is the most innate, most exhilarating and most inspiring way to exist in this world.

So here are some simple spells for the beginners to test their skills. Don't worry though. You will all be seasoned travelers on this journey very soon. The only ingredients we need are eagerness, sincerity and curiosity to learn.

Spirit Journey Spell

This spell helps beginners to think for themselves. Most of our life, someone has told us through word of mouth, books, teachings or sermons what life is all about. How about allowing your own spirit to feel, see and think about our existence in this world? Here is a simple spell that you can do to enter the world of spirituality and intuition.

You may anoint behind the ears, behind the neck or over the third eye area with a combination of sandalwood oil and essential oil of lavender to enhance your experience.

Go where you are easily able to sense the spirits around you without any disturbances. Some of the most auspicious places where you can sense your own spirit as well as your kindred spirits are:

1. Near a stream, river or by the ocean
2. Crossroads
3. Caves
4. Ruins of old monuments or any large building

5. Under the shade of a nut tree
6. Any isolated place of natural beauty

Take something to offer as libation such as a cup of milk, a jug of water or flowers. Stay at the spot and meditate on your life's journey. How far have you come? What you do think is missing in your life? You can also ask the nature spirits around you for answers. Remember to leave them a gift as you leave and promise to return soon.

Black and White protection powder

Here is an easy way to protect your home, car or any other property. Gather the following items that are required for this spell:

- 1 cup sea salt
- 1 cup black peppercorns

Use a strong blender and grind the sea salt and peppercorns into a fine powder. Salt is well known in magickal circles for its cleansing property and the black color is also held in high esteem for its evil-repelling properties.

Use this powder to sprinkle around the rooms in your house or outside your home and around the boundaries. This will keep your home and everyone in your home protected from evil energies. This will enhance your spell working abilities by removing any negative energies that may reduce your powers or concentration.

Clear Quartz Crystal Spell

Clear quartz is well known for its abilities to charge and empower any item that it comes in contact with.

Get a clear quartz crystal to use as a pendant or bracelet charm. Charge it by holding them over incense smoke or allowing the sunlight to seep into it. You may also cleanse it by dipping it in sea salt water for a few minutes.

Store tarot cards, runes or any other magickal items you have with a quartz crystal to charge and empower them.

Add clear quartz crystals to magic wands to increase their power and effectiveness.

Wear the quartz crystal as a pendant on a necklace around your neck or place it under a pillow to increase your own personal power which will help you become a powerful witch.

Bright Blessings.
