### Candle Money Spell - How and When to Cast

Money spells are very popular because of the fact that people are never satisfied with the amount they have. When we get something and the novelty of it wears off, it is time to "want" something else. Sometimes people think they are unlucky and they wonder why they don't have money although their very thoughts about the lack of it may obstruct the flow of money.

One of the biggest secrets to making money is to be thankful for what we already have. We may think today that a certain amount of money in the bank will keep us happy. However, those who have achieved that amount now wants ten times that much so that they will feel more satisfied. This is a vicious cycle that can go on and on with people spending their entire life in a "want" mode.

Here are some tips to keep money flowing towards you:

1. Give, Give, Give. Yes, the flow of money starts with you. Always give whenever you can, whatever you can and wherever you can.
2. Always remember to say thanks for even the seemingly smaller blessings. Good health, eyesight and hearing, a sunny day, a good ride to work, a kind smile from a stranger or loved on, a good meal, friends, relatives, parents, siblings, water to drink, air to breathe, a cool breeze, etc. If you look around yourself, you will find a minimum of 10 blessings.
3. Primary colors of money spells include green and gold
4. Primary number is 2 which stands for doubling. 7 and 9 are also used.
5. Jupiter is the planet of good fortune.
6. A new moon (waxing) offers the best incentive for increasing money (or anything else)
7. Mercury is also believed to bring prosperity

Here are some candle money spells for you:

### Botanicals Spell

Get a large green candle and charge it with your wishes for the future. Get a dull knife and hollow out the base of the candle. Now stuff it with dried money-drawing botanicals such as alfalfa, basil, clover, coriander, mint, parsley, vervain, etc. Light the candle and visualize lots of money in your purse or wallet.

#### Double-action Candle spell

For this spell, you will need a special type of candle called the double-action candle with two colors, one on each side. You may create a similar candle too. One side should be green and the other black.

Using a dull knife, carve what you desire to get rid of such as debt, poverty, shortage, scarcity, paucity, lack, poor, insufficiency, etc. On the green side, carve the words sufficiency, adequate, satisfaction, prosperity, abundant, overflowing, rich, plentiful, profuse, etc.

Trim the wick from the bottom end too and impale the candle on a spiked candlestick. Light the candle at both ends so that when the negative energies dissipate, the positive energies will take over.

#### Financial Nest Egg spell

Find an abandoned bird's nest or make one with twigs and straw. Dress a small green candle with Jezebel oil or essential oil of Basil. Light the candle and roll the melted wax into the shape of an egg. Get a tiny sliver of Jezebel root and push it into the wax along with a shiny penny.

Gently place the egg in to the nest and sprinkle it with magnetic sand. Bury the nest at the crossroads. This will help you gain financial independence.
